

CHARLES NEENWI

Port Harcourt, Nigeria | charlesneenwi@gmail.com | [GitHub](#)

PROFESSIONAL SUMMARY

Frontend Engineer with hands-on experience designing responsive web applications using React, Tailwind CSS, Vite, and Framer Motion. Integrated AI APIs to build interactive features, managing state and error handling to enhance user experience. Leverages graphic design background to deliver visually polished, accessible, and performant interfaces while writing clean, maintainable code.

TECHNICAL SKILLS

- **Languages & Markup:** JavaScript (ES6+), HTML5, CSS3
- **Frameworks & Libraries:** React.js, Tailwind CSS, Framer Motion, SASS, Front-end State Management Libraries
- **Tools & Platforms:** Git, GitHub, Vite, Vercel, VS Code, Version Control Systems
- **AI & APIs:** AI API Integration, REST APIs, Gemini API
- **Design:** Responsive Web Design, UI/UX Principles, Graphic Design

PROJECTS

AI Chat App | [Live](#) 2026

- Built a fully functional AI chat interface in React.js integrated with the Gemini API, leveraging AI API integration and Git for version control
- Implemented real-time AI responses with full conversation history and context management
- Added localStorage persistence, auto-scroll, typing bubble indicator, and timestamps
- Engineered a mobile-responsive UI using Tailwind CSS with dark theme and green accents, ensured cross-browser compatibility and accessibility compliance

Scenixa - AI SaaS Landing Page | [Live](#) 2026

- Designed and built a seven-section SaaS landing page for an AI video generation platform
- Implemented scroll-triggered animations using Framer Motion across all major sections
- Configured Tailwind CSS v4 with the Vite plugin for optimized build performance and incorporated SASS for custom theming
- Deployed to Vercel with a CI/CD pipeline and conducted cross-browser testing to ensure consistent responsive design across mobile, tablet, and desktop

Recipe Finder App | [Live](#) 2025

- Built a full-featured recipe discovery app enabling users to search, browse, and save favourite meals
- Integrated TheMealDB REST API to fetch and display dynamic recipe data including ingredients
- Implemented persistent favourites feature using React state and localStorage
- Deployed on Vercel with responsive design across all screen sizes

EXPERIENCE

Freelance Frontend Engineer 2025 - Present Remote

- Built and deployed multiple responsive frontend applications using React, Sass, Tailwind CSS, Vite, and Framer Motion
- Integrated AI APIs and REST APIs into web applications, handling async requests, leveraging front-end state management libraries for predictable data flow, and implementing error handling
- Applied graphic design background to deliver visually polished, user-focused interfaces
- Managed end-to-end project lifecycle from planning and development to deployment on Vercel, leveraging version control systems such as Git and GitHub for collaborative workflows

YouTube Content Creators 2022 - 2025 Remote *Freelance Thumbnail Designer*

- Designed YouTube thumbnails applying visual composition, typography, and colour theory
- Managed client briefs, revisions, and delivery to professional deadlines

EDUCATION

ALX Africa Jun 2025 - Mar 2026 Remote *Frontend Engineering Programme, Frontend Engineering*

- **Achievements:** Completed intensive project-based frontend engineering curriculum focused on React and modern web development, Built and deployed a capstone project as final assessment

Rivers State University 2023 - Present *B.Sc., Plant Science and Biotechnology* Port Harcourt, Nigeria
