

CHARLES NEENWI

Frontend Engineer · React Developer · AI Integration

charlesneenwi@gmail.com | Port Harcourt, Nigeria | github.com/charlesneenwi | my-portfolio-beige-three-30.vercel.app

PROFESSIONAL SUMMARY

ALX-certified Frontend Engineer with hands-on experience building responsive, performant web applications using React, Tailwind CSS, and Vite. Experienced in AI API integration, having built a fully functional AI chat interface connected to a live AI API. Background in graphic design sharpens a strong eye for visual detail and UI quality. Passionate about writing clean, maintainable code that solves real-world problems.

TECHNICAL SKILLS

Languages & Markup:	JavaScript (ES6+), HTML5, CSS3
Frameworks & Libraries:	React.js, Tailwind CSS, Framer Motion
Tools & Platforms:	Git, GitHub, Vite, Vercel, VS Code
AI & APIs:	AI API Integration, REST APIs, Gemini API
Design:	Responsive Web Design, UI/UX Principles, Graphic Design

PROJECTS

AI Chat App 2026

React · Vite · Gemini API · Tailwind CSS · Vercel

- Built a fully functional AI chat interface integrated with the Gemini API from scratch
- Implemented real-time AI responses with full conversation history and context management
- Added localStorage persistence, auto-scroll, typing bubble indicator, and timestamps
- Engineered mobile-responsive UI with dark theme, green accents, and iOS zoom prevention

Scenixa — AI SaaS Landing Page 2026

React · Vite · Tailwind CSS v4 · Framer Motion · Vercel

- Designed and built a seven-section SaaS landing page for an AI video generation platform
- Implemented scroll-triggered animations using Framer Motion across all major sections
- Configured Tailwind CSS v4 with the new Vite plugin approach and single import syntax
- Deployed to Vercel with full responsive design across mobile, tablet, and desktop

Recipe Finder App 2025

React · Tailwind CSS · TheMealDB API · Vercel

- Built a full-featured recipe discovery app enabling users to search, browse, and save favourite meals
- Integrated TheMealDB REST API to fetch and display dynamic recipe data including ingredients
- Implemented persistent favourites feature using React state and localStorage
- Deployed on Vercel with responsive design across all screen sizes

EXPERIENCE

Freelance Frontend Engineer 2025 – Present

Remote · Independent

- Built and deployed multiple frontend projects using React, Tailwind CSS, Vite, and Framer Motion
- Integrated AI APIs into web applications, handling async requests, state management, and error handling
- Applied graphic design background to deliver visually polished, user-focused interfaces
- Managed end-to-end project lifecycle from planning and development to deployment on Vercel

Freelance Thumbnail Designer 2022 – 2025

YouTube Content Creators · Remote

- Designed YouTube thumbnails applying visual composition, typography, and colour theory
- Managed client briefs, revisions, and delivery to professional deadlines

EDUCATION

ALX Frontend Engineering Programme Jun 2025 – Mar 2026

ALX Africa · Remote

- Completed intensive project-based frontend engineering curriculum focused on React and modern web development
- Built and deployed a capstone project as final assessment

B.Sc. Plant Science and Biotechnology (In Progress) 2023 – Present

Rivers State University · Port Harcourt, Nigeria · 200 Level
